

Antique BarnPlank Scar'dFace Flooring

June 2, 2011

Design Professionals to specify this product use the following information:

product: Antique BarnPlank Scar'dFace Flooring (designate appropriate face widths)

contact: HistoricWoods by LunarCanyon 801-835-3476 kyle@historicwoods.net

Product Description:

1. **specie** any softwood, but predominately a combination of pines, fir & hemlock
2. **source :: antique** 100% recycled primarily siding from barns
3. **moisture content** kiln-dried to 6-8% moisture content
4. **hardness** janka hardness rating: 500 (averaged)
5. **character rating:** 6.6 (rustic elements) our character scale rates floors on a 1 - 10 scale; a low number is a refined floor and a high number is very rustic
6. **grading** the appearance standards outlined here apply to a floor as a whole and not to individual boards
7. **knots** an unlimited amount of knots of any size are allowed; some knots are broken and will need filled or defected out by the installer
8. **holes** an unlimited amount of nail holes are allowed, but generally there are only a few nail holes per board; occasionally bolt holes will also be present and will need filled or defected out by the installer
9. **checks/cracks** much of the desired character of this product comes from checks in the surface of the boards so an unlimited amount of checking is allowed; cracks through the thickness of the board are allowed as long as the board is stable enough for nail down installation
10. **surface** the face will be planed mostly smooth, but will have some variances from critter tracks, checks and saw marks
11. **color** the color variances are unlimited, but predominately range from dark brown to tan & creamy white
12. **grain** the majority of the wood will be flat or cathedral grain; some rift cut or quarter sawn boards may be included
13. **millwork** $\frac{3}{4}$ " thick at the milled portion of the face with the original textured areas thinner; a tongue and groove will be milled on the edges; the back of the board is milled mostly smooth with back outs; the ends of the boards will be cut square
14. **widths** 6" to 9" with custom sizes available; floors are usually produced with a combination of 3 or more face sizes with enough of each size to create a random pattern
15. **lengths** 2' through 10'; with an average length of about 6'; boards up to 12' included if available

16. **installation** basic principles of installation for solid wood floors apply to this product and it should be installed according to the standard professional practices of your area; although, installers should be well experienced with custom wood floors and have artistic skill in board placement
17. **unfinished** this flooring product comes unfinished and is designed to be prepped and finished on site
