

# FreshCut Walnut FullSawn Flooring

March 1, 2009

## product information

fresh cut Walnut FullSawn provides the refined beauty of walnut with the texture of a surface that has been preserved from the time the board was sawn from a log; a floor of this product will have naturally flowing texture with remnants of saw marks and other character created through drying and handling; we will maximize the use of this forest resource by providing the widest and longest boards possible, which also makes for a more attractive floor; available FSC certified so that you know that you are contributing to responsible use of our forest resources

## specie

American Walnut (*Juglans nigra*)

## source :: FreshCut (not recycled)

well managed American forest lands

## hardness

janka: 1010

## moisture content

kiln-dried to 6-8% moisture content

## character rating

our character rating: 5.7 (rustic elements)

our character scale rates floors on a 1 - 10 scale; a low number is a refined floor and a high number is very rustic

## knots

unlimited knots are allowed, even at the edge of the board; knots may also be broken leaving a void that will need cut out or filled depending on owner's preference

## cracks/checks

unlimited surface checking is allowed; limited through checking is allowed especially at the end of boards

## color

the color variance is unlimited and can range from white to dark brown with the vast majority of the surface brown to dark brown

## grain

the majority of the wood will be flat or cathedral grain; some rift cut or quarter sawn boards may be included

## millwork

¾" thick at the thickest point; a tongue and groove will be milled on the edges; the back of the board is milled mostly smooth with back outs; the ends of the boards will be cut square

## widths

3" to 7" milled to the full inch wide with custom sizes available; floors are usually produced with a combination of 3 or more face sizes with enough of each size to create a random pattern

## lengths

2' through 12'; with an average of about 6'

## surface

the face retains the board's original sawn surface with an unlimited mix of band-sawn and circle-sawn texture; additional marks from the lumber production process may grace the face such as sticker shadow, grade crayon marks, grade paint marks, and black streaking; the face is wire-brushed to remove loose wood and excessive marking

## installation

basic principles of installation for solid wood floors apply to this product and it should be installed according to the standard professional practices of your area; although, installers should be well experienced with custom wood floors and have artistic skill in board placement

## unfinished

this flooring product comes unfinished and is designed to be prepped and finished on site
